PASSENGERS SLEEPING

And Awoke Only When Smoke Became Overpowering—Ship Rushed For Shore and Was Run Into The Government Pier.

(Associated Press Telegram)
Chicago, Sept. 1.—The lives of three hundred passengers of the excursion boat City of Chicago, which caught fire about twelve miles out from this harbor in Lake Michigan at 5 o'clock this morning, were saved by the resourcefulness of Captain Oscar Bjork.

His wireless failing to work, Captain Bjork ordered the engines full speed ahead and 45 minutes later the big boat with a carrying capacity of 2,600 passengers sank her bow into the government pier and was wedged fast.

All through the ordeal the officers and crew stuck to their posts, although the stokers and engine-men were choking with the smoke and flames were bursting from the upper works.

To avoid panic the passengers, nearly all of whom were asleep in their cabins, were not notified to come on deck until the pier was dimly visible through the morning mist.

"Women and children first" ordered Captain Bjork and the male passengers as well as the crew stood back. Most of them were thrown from their feet when the boat struck the pier.

The plight of the ship had been seen from shore and seven tugs, two fire tugs and two excursion steamers were on the scene almost as soon as the City Chicago struck.

The passengers descended to the pier, which forms a long breakwater at the entrance of the harbor and were later brought into the city on the rescuing craft.

The flames were subdued after a three hours' fight by the fire tugs, assisted by streams from the excursion boats. The stern settled a few feet owing to the water which accumulated in her hold but the prow remained wedged in the pier.

The City of Chicago left Benton harbor, Mich., 85 miles from Chicago shortly before midnight. The fire started in an airshaft leading into the cook's gallery amidships. The boat carried a full cargo of fruit in baskets. These baskets, made of flimsy wood caught fire and spread the flames with great rapidity.

Most of the passengers rushed to the upper decks when they learned of the fire and nearly all of them were clad only in their night garments when they left the boat. No effort was made to save personal effects.

M. E. Wells, of Ann Arbor, Mich., came on deck only half clad, after being awakened by members of the crew. "All I lost was my false teeth," he said.

Hedlund, the wireless operator, said his apparatus failed to respond because the generator from which the current derived was put out of commission by the fire.

Blankets, burlap bags and all sorts of covering were requisitioned at the wharf when the half clad passengers were landed from the tug.

SUPREME

Effort of German Armies in France to Strike A Telling Blow

EXPECTED TODAY, ANNIVERSARY OF BATTLE OF SEDAN

FIGHTING IS RESUMED

All Along The Front and Official French Sources Admit Advance of German Right Wing—Transport Facilities Favor France.

(Associated Press Telegram)
London, Sept. 1.—Today is the anniversary of Sedan and it is fully expected that the German army in France will make a supreme effort to celebrate the day in some strikingly effective manner. Fighting has been resumed all along the front, according to the official French account, which admits that the German right wing continues its advance. No other details of the fighting have yet come through and it is not known whether the British army has again been engaged.

According to the Paris Temps, while the German forces are exhausting themselves by their tremendous exertions far from their base, the French by their superior transport facilities are able constantly to bring up fresh effectiveness so as to prolong the struggle indefinitely and wear the enemy down if they do not beat them.

In regard to the eastern theater of the war reports are conflicting from St. Petersburg. The continued success of the Russians against the Germans and Austrians is claimed. On the other hand, Berlin, which at last is beginning to issue much more news of the war, claims important victories of the Austrians over the Russians. It is impossible as yet to decide which of these conflicting reports is correct but it is evident that fierce fighting is proceeding in the neighborhood of Lublin.

SIGNIFICANT DISPATCH HAS BEEN RECEIVED

(Associated Press Telegram)
New York, Sept. 1.—Dow Jones & Company, publishers of the Wall Street Journal, published the following item on their news tickers today:

"London: Censorship was suddenly tightened at noon without warning. Numerous dispatches relating to operations in France and Belgium were held up by the government's orders."

The foregoing dispatch is highly significant.

"Operations in Belgium may relate to a rear attack on Germans by British troops, reported to have landed at Ostend."

AEROPLANES WERE SWARMING IN SKY DURING FIGHTING

(Associated Press Telegram)
London, Sept. 1.—A Times despatch from Paris speaking of the fighting in the north says: "Throughout the fighting of the last few days swarms of aeroplanes have circled in the sky. The enemy's supply arrangements are reported to have been broken down, the food of the men in some cases consisting of the flesh of horses."

BELGIAN QUEEN SAFE IN LONDON; ARRIVES QUIETLY

(Associated Press Telegram)
London, Sept. 1.—Queen Elizabeth of Belgium and her children who arrived in London last night, were met by the Belgian minister at the station and proceeded almost unnoticed to the residence of Lord Curzon of Kedleston, former viceroy of India whose guests they will be for a few days.

GREAT PAINTING OF RUBENS DESTROYED IN BOMBARDMENT.

(Associated Press Telegram)
London, Sept. 1.—In a despatch from Amsterdam, a correspondent of the Central News says that during the German bombardment of Malines the painting by Rubens representing the "Miraculous Draught of Fishes" was destroyed. It hung in the church of Notre Dame.

The correspondent declares that the German general, Prince von Buelow, who was wounded in the battle of Haagen, has since died. Various places in Belgium now occupied by the Germans, according to this same authority, have been posted with placards announcing that the Germans now consider Belgium a German province.

ENTENTE DISLIKE UNITED STATES' SHIP PURCHASE

(Associated Press Telegram)
Washington, Sept. 1.—Expressions from each of the powers of the triple entente that they would regard with disfavor the purchase of German steamers for the establishment of an American merchant marine were before administration officials for consideration today. Great Britain, Russia and France contend that vast sums of money would be placed at the disposal of the Germans through the transfer of German steamers to the United States. It was suggested, however, by envoys of the entente that if the Washington government bought an equal number of ships from each of the belligerents, there would be no objection.

LIVE SHELLS ARE THROWN OVERBOARD BY BRITISH SAILORS.

(Associated Press Telegram)
London, Sept. 1.—The Harwich correspondent of The Telegraph gives interviews with wounded sailors and speaks of the plucky way in which the English handled live shells. Many of the German shells which made hits, it appears, did not burst. "There were five shells in the boiler room of one of the destroyers," he quotes one of the sailors as saying, "and if one had burst it would have been all up with the ship."

"What did you do with them?" was asked.

"Oh, just shied them overboard. There was no room for such rubbish aboard our yacht."

Three Russian Army Corps Were Annihilated by Germans, and 70,000 Prisoners, Berlin Reports

(Associated Press Telegram)
Washington, Sept. 1.—A German dispatch in which three Russian army corps were defeated, including two Russian army corps, was taken today to the German press by the Berlin press.

"Official reports at Allenstein are greater than the Russian army has ever had. Seventy thousand prisoners were taken, including two Russian army corps. The Russian army, under the command of General von Kluck, was defeated by the German army, under the command of General von Hindenburg, in the battle of Allenstein. The Russian army was annihilated, and 70,000 prisoners were taken. The German army is now advancing towards the Russian border."

M'REYNOLDS WILL ENJOY SHORT REST

(Associated Press Telegram)
Washington, Sept. 1.—Attorney General McReynolds will return to private life for a month after he retires from the cabinet. He decided not to take his oath as a late justice of the supreme court until the tribunal convenes October 12.

To State Hospital.
Deputy Sheriff Henry Rhinehart left Tuesday at noon for Columbus with a patient for the state hospital.

(Associated Press Telegram)
London, Sept. 1.—A despatch to the Reuters Telegram company, from St. Petersburg, says that by imperial order the city of St. Petersburg capital of the Russian empire since 1712, will henceforth be known as Petrograd. This change eliminates the Teuton construction in the name by which the chief city of Russia has been known since it was founded by Peter the Great, in 1703.

Here part not be clear. "General V. defeated a Russian army of 100,000 men at the battle of Allenstein. The Russian army was annihilated, and 70,000 prisoners were taken. The German army is now advancing towards the Russian border."

Important Events Are Transpiring on Frontier Is Indicated by Silence

German Right Wing Is Pressing the French Left, Forcing a Retreat, But the Allies Are Still Opposing the Advance With Great Vigor

RUSSIANS REPORTED TO HAVE DEFEATED AUSTRIANS

Losses of Latter Said to Have Been 20,000—Conflicting Reports From Eastern Theatre of Activities—Germans Have Evacuated Several Belgian Towns—Today is Anniversary of Sedan, a Great German Victory and is an Inspiration.

The absence of news concerning the progress of the European war is today most marked. Not since the early days of August, when military operations first took serious form, has there been such a dearth of intelligence, official or otherwise. It is evident that there is a concerted effort on the part of both the English and the French authorities to keep the world at large in absolute ignorance of what is transpiring in northern France.

No official statements have been issued in London, Paris or Berlin, and such news as has come to hand is decidedly fragmentary, unsubstantiated, of minor importance, and without real significance.

This veil of secrecy, drawn tighter today than at any time in the last 30 days, may be taken as an indication that events of importance are transpiring in northern France. A similar silence was observed during the fighting around Mons, Cambrai and Leateau last week.

The latest official report on the situation north of Paris was issued last night. It said that the French left, owing to the progress of the German right wing, had been forced to "mark a new retirement."

Explaining this announcement the French embassy in London today said:

"The Anglo-French army corps have had to give ground but nowhere have they been broken through."

The fighting today in which the allies are believed to be opposing the German advance, is thought to be centered around Laferre, a strongly fortified French position on the river (Oise) 75 miles northeast of Paris. The fate of the French capital may hang on the outcome of these operations.

A news dispatch from Dieppe says a great battle has been fought at Croisilles, and probably is still in progress. No details are given, nor has this report been received from any other source. Croisilles is ten miles southeast of Arras, in the department of Pas de Calais, and is about 15 miles from Cambrai.

Persons reaching Paris from the north describe the preparations of the allies for a defensive fight. A Frenchman who reached the capital today says there are no Germans in Lille, Roubaix or Tourcoing, a group of towns now occupied by the Germans last week.

Today is the anniversary of the battle of Sedan, which was fought with disastrous results to the French in 1870. This coincidence draws particular attention to the outcome of the present operations, concerning which such impenetrable silence is being maintained in London, Paris and Berlin.

Rome has received a report from Roumania that the Russians have inflicted a crushing defeat on the Austrians in Galicia, the troops of Emperor Francis Joseph suffering losses declared to amount to 20,000. A news dispatch from St. Petersburg makes a similar claim, saying the Austrians in Poland have lost tens of thousands of men.

Nevertheless, reports from the eastern theater of war continue to be conflicting. Both St. Petersburg and Berlin claim important victories.

By imperial order the city of St. Petersburg will henceforth be known as Petrograd, the change eliminating the Teuton construction in the name of the chief city of Russia.

An official communication given out at Antwerp, says the situation throughout Belgium is satisfactory. The Germans are declared to have evacuated Arras, and railroad communication has been restored.

Liege Battlefield Described By American Girl Who Has Returned From Dreadful Scene

(Associated Press Telegram)
New York, Sept. 1.—The battlefield of Liege, as seen through the eyes of an American girl, was vividly described today by Miss Anna Laine, a graduate nurse of the Bridgeport, Conn. hospital, a passenger on the steamer Pandam from Rotterdam.

"I was in Liege when the fighting first started," said Miss Laine, "and I saw the German officers who were friends of mine took me to a house where I was practically out of range of the shells that were being hurled at the city by the Germans. During the evening the Germans withdrew and during the lull in the fighting two of the Belgian officers invited me to go over the field."

The ground was literally soaked with blood and the bodies of horses and men lay everywhere. There were many a place where blood had flowed down the sides of little hills and earthworks. Its course was plainly marked. Some bushes were splattered with red as high up as where I was practically out of range of the shells that were being hurled at the city by the Germans. During the evening the Germans withdrew and during the lull in the fighting two of the Belgian officers invited me to go over the field."

Russians Preparing to Destroy Berlin as Reprisal on Germany For the Vandalism at Louvain

(Associated Press Telegram)
London, Sept. 1.—The correspondent of the Express, telegraphs from the Hague, saying:

"There is the greatest alarm in Berlin over the advance of the Russian troops. The news that the emperor has left the western headquarters and moved to the Russian front has shown the residents of the capital where the immediate peril to their safety lies."

"A story has been circulated that the Russians are preparing to avenge Louvain by treating the city of Berlin in the same way as the Germans treated that city. Many of the populace who can get away are going to Switzerland, Norway and Denmark."

"In connection with the siege of Liege it is told here that the German artillery experts, after vainly trying every type of field gun at their command against the forts, sent to the Krupp factory for a new 14-inch naval gun, which was set down four miles from the nearest Liege fort. The first shot fired from it hit the officers' mess house inside the Belgian fortification, killing 125 men."

The Man Behind the Guns.

This is a recent photograph of Chancellor Bethmann-Hollweg, the man behind the guns. Next to the emperor he is the most powerful man in Germany, perhaps in Europe. It is generally believed that the German not only knew Austria was to declare war on Serbia, but conspired to the plan. Thus Bethmann-Hollweg may have managed the whole situation. He hasn't the power of Bismarck, who filled the same position at the time of the Franco-Prussian war, but this war may show he has the ability. Just now Emperor Wilhelm shines as the strongest man in Germany. Bismarck had an emperor less able and foreful—the grandfather of the Kaiser—to cope with.

GRANVILLE WOMAN IS VERY GRATEFUL

Makes Written Statement Showing How Wonderfully Nerv-Worth Improved Her Health.

One of the most convincing statements concerning the merits of Nerv-Worth yet received at any of the remedy's distributing centers has just been handed to the Nerv-Worth Specialist at the J. J. Evans Drug Store, Warden Hotel Bldg. It was written by Mrs. Julia A. Dunaway of Granville, and speaks eloquently for itself. She says:

"Before taking Nerv-Worth I had awful headaches, often got no sleep, had bad stomach trouble, was so weak I was not able to do housework with any degree of satisfaction, was constipated and extremely nervous—almost a complete wreck. After taking Nerv-Worth 5 days I found it no hardship to do my housework, am cheerful and feel like a new woman and all the other ailments have righted themselves. I am the mother of five children and have doctored with some of the best doctors. Nerv-Worth is the wonder of the age. I am better in every way and only 5 days' treatment did the work."

It is such written testimony as this that proves Nerv-Worth to be the world's greatest nerve tonic. It is good for men and women and children. Women victims of nervous debility will find especial hope and comfort in Mrs. Dunaway's letter. Thousands of American women suffer as she did. It is useless to suffer longer. Buy a bottle of Nerv-Worth at the J. J. Evans Drug Store. It is guaranteed. Money back if it doesn't help you.—Adv.

RHEUMATISM

A Home Cure Given By One Who Had It.

In the spring of 1891 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but with no relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number of people who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case. I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't even think of simply mail your name and address and I will send it free to you. After you have used it and it has proved itself to be that long looked for means of curing your Rheumatism, you may send the name of one dollar, but understand, I do not want your money unless you are perfectly satisfied to send it. Don't let four or five miserable letters when positive relief is offered, you may not have it. Write today.

War and Hatred.

Hon. Geo. F. Burba, secretary to Governor Cox, writing for the Springfield News, says:

"The worst feature of this or any other war is the bitter hatreds that are engendered. The prejudices that will exist for fifty or a hundred years will be a liability to the world regardless of who wins the struggle. We were getting along pretty well in the matter of brotherly love until the war broke upon us. Now we begin to hear race curse race and nation hurl hate at nation. Little children who hardly knew from what nationality they were descended are being taught to respect only those of their own tribe or nation. Men are insulting men for no other reason than that they happened to be born under different governments. The end of the war will not see the end of such prejudices. Only a new generation will be able to have man deal with man as men should deal with men, regardless of their origin.

"Our friends—the people of every other nation! We alone, of all the world, can use such expression. Here, in this good land of ours, is Slav and Serb; here Teuton lives at peace with Anglo-Saxon, and even yellow Mongol is free to travel as he pleases. Was there ever before such a land as ours? The blending of all bloods, the sons of every climate—such is our heritage. The friends of all, the enemies of none—the very stars must view us from afar with silvery eyes of gladness. The one mighty nation of the world that has no quarrel with any man—such is the proud position of this good land of ours. May we be able to so drive the ship of state that troubled seas may not overwhelm us. May we stand here in silence, with bowed heads and sympathy for all, until the end has come. Then, in the binding up of the hurts, in the adjustment of the battered mechanisms of government, may we be of aid to all. There will be a man's work to do when the end

Dream of Peace.

Victor Hugo, dreaming years ago of world-wide peace said:
"A day will come when the only battle field will be the market open to commerce and the mind opening to new ideas. A day will come when bullets and bombshells will be replaced by votes, by the universal suffrage of nations, by the venerable arbitration of a great sovereign senate, which will be to Europe what the parliament is to England, what the diet is to Germany, what the legislative assembly is to France. A day will come when a cannon will be exhibited in public museums, just as an instrument of torture is now, and people will be astonished how such a thing could have been. A day will come when these two immense groups, the United States of America and the United States of Europe, shall be seen placed in presence of each other, extending the hand of fellowship across the ocean."

It was Victor Hugo whose account of the battle of Waterloo has been pronounced the greatest piece of descriptive writing. What would Hugo write of conditions in Europe today? What Hugo will arise to pen the story of this greatest world's war?

Party Platforms.

The position of the Republican party in Ohio this year is certainly an enviable one. After a session not dragged over two days the Republican platform finally emerged, and what does it mean?

While the Democrats and Progressives are chafing to the front

with declarations the Republicans held back to see what they could do, and then gave the people nothing constructive.

The effect of the platform is best shown when it is considered that Frank B. Willis, the Republican candidate for governor, himself the artful dodger in all his political life, attempted to explain what it meant. While the Democrats stand on the house law given to the people as the result of a constitutional amendment passed by their vote, and while the Progressives declared for state and nation wide prohibition, what did the Republicans do? Of course they staid. They agree to accept the will of the people as expressed in November on the constitutional amendments. They are compelled to do that. The Democrats, the Progressives, the Socialists, all of them will accept the decision of the people, because they must. But Mr. Willis, for the benefit of his "dry" friends attempts to explain the platform, because they must. But Mr. Willis, for the benefit of his "dry" friends attempts to explain the platform, because they must.

October, Thrift Month.

A Chicago Citizens' Thrift committee, to hold mass meetings to urge thrift, to systematize thrift work in behalf of consumers, to fight the tendency during the European war for living costs to go upwards, and particularly to make the new municipal markets popular and useful is the next step in Chicago's fight for thriftier living conditions. Similar Citizens' Thrift committees are in progress of organizing in Milwaukee, Spokane, Pittsburgh, St. Louis, Houston, Texas, Ogden, Utah, New York, and other cities, according to reports to the American Society for Thrift.

The plan to make October Thrift month, a time for the country to turn to better ways of thrift, to liquidate vast sums now owing to retailers, wholesalers, and the banks, has had much encouragement by commercial clubs and similar bodies as well as by consumers.

Another Thrift month plan is that of reviving, even among flat dwellers in the cities, the old fashioned practice of buying quantities of vegetables, fruits, etc., in the autumn for winter use.

Closed Stock Exchange.

The reports of stock market quotations are rarely printed on the front pages of the newspapers. But in ordinary times there are a great many men who turn to the story of the ticker before they read the most sensational dispatches on page 1.

The closing of the stock exchanges of course inflicts hardship. Business men who own securities now have no means of knowing what may be the value of their shares. A great many men are thrown out of work, from the people of substantial investment houses, as cautious and conservative as any bankers, down to the futures of Wall street, the hangers on and has-beens who flock around the blackboards.

To a great many men the interest they take in stock market "flashes" is a business damage. The same time devoted to developing new ideas in their own field, where they are thoroughly at home, would be far more profitable. The only possible game the outsider can play is to buy only at rare intervals, when the market is deeply depressed. But most men after sipping once on a conservative diet, get too much the taste of blood. Usually they go in at the high

Sidelights on the Great European War

It is estimated that the money cost of the European war will average fifty millions a day. At that rate five billions would be wanted in one hundred days, and nearly twenty billions in a year's time.

One of the latest episodes of the wealth of nations credits Russia with only forty billions and Austria-Hungary with but twenty billions. Russia the Providence found. How will it be possible for them to stand the financial strain of so costly a war? Germany, with a wealth of sixty billions, France with sixty billions, and Great Britain with a hundred billions, have at least more available wealth, but none of the others have the natural resources that Russia possesses, and probably hope can be seen in the non-combatants of their respective countries to so great an extent without riotous protest.

If the war is of long duration, the national debts of the combatants must be greatly increased. France already has a debt of six and a half billion dollars, Germany, and a number of other states, nearly five billion. Russia ordinary, nationally and individually, about three and three-quarter billion, nearly three, of a quarter billions, and Belgium, one-quarter of a billion.

The United Kingdom owes its national obligations with greater ease than do any of the other European powers. Its moderate debt obligations previous to the war, of which it had risen to only a billion and a quarter dollars. In the twenty-three years following 1793, the French Revolution and the Napoleonic

Farm-to-City Parcel Post.

(Columbus Dispatch)
The farm-to-city parcel post service is now believed by the officials of the postoffice department to be a permanent fixture. Special tests made in ten cities, have now been reported on favorably. Though the use of the service is by no means general, there is appreciation of it by both producers and consumers who have tried it, and the enthusiasm with regard to it is spreading.

The tests brought out the following facts: That the average of damage to shipments in transit is less than one-tenth of one per cent., and that much of this has been due to faulty packing, that under the best conditions, the period of transit from producer to consumer is from eight to twenty-four hours; that makes hazardous the shipment of butter and dressed poultry in mid-summer; that cheap containers are making their appearance which are devised on the thermos bottle principle, while ice boxes are being installed in some postoffices. The movement, therefore, is toward greater safety, if not greater speed in delivery, and the obstacles that have presented themselves this summer will gradually be eliminated. There is report by the postmaster of instances in which the producer has quoted prices so near the regular market prices that the city buyers have not been attracted, but the comment is general that, though there has not been a saving in cost, there has been an improvement in the quality of the foodstuffs bought by parcel post.

Mrs. Tenia Trine, 52, and Miss Nora Sullivan, 17, of Columbus, both received wounds in their arms when a shot gun in the hands of Louis A. Trine was discharged.

John Lee 29, of Astoria, Chinaman, committed suicide by stabbing himself in the breast. His body was found in the waterworks reservoir.

By the Way

A lot of people got up early today to see "September Morn."

Peace makes some progress. At a mass meeting held in the city hall on Tuesday night, Ike Gilberg's resolution deploring the present war in Europe was unanimously adopted.

A woman doesn't pay much attention to what her husband says unless he's talking in his sleep.

Of the two professions, that of writing verse pays much better than that of writing poetry.

If you wish people to attach importance to what you say, you must claim to be a prophet.

Lelia Constance Featheringham says when she buys a gown she bases her selection on the theory that a brass band makes more noise than a violet.

A man has his choice. He can retain his self respect, or he can be what is known as a "good mixer."

Tears provide a woman with an adequate defense. But a man needs a lot of witnesses and the best legal talent available.

A woman often counts her money but she never knows how much she has.

SCHOOL DAYS.

Oh, shriek with joy, you lucky boy, vacation's nearly ended, and soon you'll tool yourself to school—the thought is surely splendid! We long have known how tired you've grown of fooling round and fishing, how for your books and slate, gadzooks, you've ardently been wishing. We've seen you weep because they keep the schoolhouse closed all summer; you tired of play in half a day (which statement is a hummer!) The swimming hole to schoolboy soul gives little satisfaction; in dreams you see the Rule of Three, and eke the Vulgar Fraction. You think of maps while idle chaps are stealing unripe apples; your thoughts are all of learning's hall, of blackboards, desk and chapels. Ah, how you hate to dig for bait, or boating, or gunning, when you might find food for your mind if school were only running! How you abhor the baseball war, and other pastime dizzies, when you might strike some truths you'd like, if school were only busy! Now sing and smile! A little while will see vacation ended; reward will come, the schools will hum—that thought is surely splendid!

POLICE BREAK UP GANG PLAYING IN FIRE ESCAPE

Police Chief Sheridan and Patrolman Hurlbaugh Tuesday morning rounded up seven youngsters who have been making themselves a nuisance in the alley next to the Auditorium. The lads were marched to the mayor's office where a half hour's session was held with Mayor Bigbee. It was alleged that a gang of boys have been throwing bricks and rubbish into the fire escape, using it as a plaything, yelling "fire" while entertaining the crowd in progress and otherwise annoying the attendants of the play house. The statement was made to Mayor Bigbee that a panic was narrowly averted a week ago when some of the boys yelled "fire" while a picture show was in progress. The ring leader was in the gang Tuesday and a severe lecture was handed out by the mayor. The boys were given to understand that none of them was too old nor too young for a term at Lancaster if the annoyance did not cease. They were allowed to go on their promise of future good behavior.

Lesson in Scientific Complexion-Rewinding.

Everyone has a beautiful skin and does not want to be had at any dose. Hear that in mind and it will be easier to understand the correct principle in acquiring a new complexion. Nature is constantly shedding the top skin in flakes, particles, like dandruff, and much smaller, and in abnormal conditions, or in advancing age, these particles are not shed as rapidly as in robust youth. The larger they remain the more solid they feel, they become, that is the immediate cause of a "bad complexion."

It has been discovered that ordinary soaps do not remove the particles, but merely wash them away. The absorption, while bathing, Nature's work, goes on gradually enough to remove the particles. In a week or two the transformation is complete. The fresh, healthy, youthful complexion is then what you wish. You can get it by using a skin cream which should get an ounce of moisture and it is the element. The skin was right, like old cream, washing it off mornings advertisement.

MRS. WILLIAMS' LONG SICKNESS

Yields To Lydia E. Pinkham's Vegetable Compound.

Elkhart, Ind.:—"I suffered for fourteen years from organic inflammation, female weakness, pain and irregularities. The pains in my sides were increased by walking or standing on my feet and I had such awful bearing down feelings, was depressed in spirits and became thin and pale with dull, heavy eyes. I had six doctors from whom I received only temporary relief. I decided to give Lydia E. Pinkham's Vegetable Compound a fair trial and also the Sanative Wash. I have now used the remedies for four months and cannot express my thanks for what they have done for me.

"If these lines will be of any benefit you have my permission to publish them."—Mrs. SADIE WILLIAMS, 455 James Street, Elkhart, Indiana.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of, and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., (Confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

PRIMARIES IN WISCONSIN FOR STATE OFFICES

(Associated Press Telegram) Milwaukee, Wis., Sept. 1.—A statewide primary election is being held in Wisconsin today for the selection of party nominees for United States senator, state and county offices and congressmen.

A general canvass of the state seems to indicate that Governor McGovern, Levi H. Bancroft and Thomas Morris will run a close race for United States senator. For the gubernatorial nomination, the names of A. H. Dahl, LaFollette candidate; W. H. Hutton, also a LaFollette adherent, and Emanuel L. Paullipp, "conservative" candidate, are most mentioned. John A. Aylward and John A. Karel, candidates for governor and Thomas M. Kearney and Paul O. Hustling for United States senator are parties to keen contest on the Democratic ticket.

(Associated Press Telegram) Concord, N. H., Sept. 1.—A moderately heavy Democratic and Republican vote was expected at the state-wide primaries today. The Progressive candidate for the highest offices were unopposed.

This is the first time the voters of New Hampshire have nominated candidates for United States senator by direct vote.

Senator Jacob H. Gallinger, Republican, was unopposed for re-nomination.

DEMOCRATS OF GEORGIA ARE IN CONVENTION. (Associated Press Telegram) Macon, Ga., Sept. 1.—Georgia Democrats met in convention here today to nominate candidates for the United States Senate, Congress and various other offices.

Final action by the convention is equivalent to election.

IDaho PRIMARIES. (Associated Press Telegram) Boise, Idaho, Sept. 1.—Idaho voters are today naming the tickets of the Democratic, Republican, Progressive and Socialist parties.

EXPECT NO WORD FROM STEFANSSON FOR TWO YEARS

(Associated Press Telegram) Nome, Sept. 1.—The gasoline schooner King and Wings, which has arrived here from Point Barrow, Alaska, brought news that Vilhjalmur Stefansson, the Canadian explorer, with two companions, set out from Martin Point east of the mouth of the Barrow river, March 22 last, with six dogs, a sled, two rifles and plenty of ammunition, heading straight north over the ice in search of land.

Before starting Stefansson left orders with Dr. Rudolph M. Anderson, his lieutenant in the Canadian government exploration to establish a camp for him on Banks Land.

Stefansson may not be heard from for two years, his associate says. The three men in the Stefansson party are remarkable ice travelers and expected to be able to subsist on seal meat, like the dogs. Their sled is built so as to be readily convertible into a boat for crossing streams of open water in the ice.

CLAYTON TRUST BILL TAKEN UP

(Associated Press Telegram) Washington, Sept. 1.—With prospects of passage before adjournment tonight, the Clayton trust bill was taken up again today in the Senate. Administration leaders predicted that the first legislation program will be ready for President Wilson's signature within ten days, with the exception of the railroad securities bill being held over to next session.

Mr. and Mrs. J. C. Butte of Johnston, O., returned home Monday after a visit with Mr. and Mrs. J. W. Blamer of Fredericktown. They were accompanied home by Miss Mina De Wolfe of San Antonio, Texas, who has also been a guest at the Blamer home.—Mt. Vernon Republican-News.

RIB BROKEN IN A RUNAWAY

Bernis Miller, living at 130 South Third street, was painfully injured when a horse he was driving became frightened and began kicking, late Monday afternoon.

Mr. Miller is a driver for the Cregg Bros. grocery in South Third street. He was sitting at the Third street railroad crossing when a part of the harness broke and dropped down around the horse's feet, frightening the animal. It started kicking and broke the shafts of the wagon and kicked the driver. He finally succeeded in controlling the animal and passersby assisted him. He was placed in a buggy and taken to Dr. P. H. Cosser's office where it was found he had been badly bruised and one rib was broken.

62 SALOONS ARE PERMITTED IN THIS COUNTY

OF THIS NUMBER NEWARK CITY WITH 27,866 POPULATION IS ENTITLED TO 55

Question as to Hanover's Being Wet Or Dry to be Submitted to Hogan.

The Licking County Liquor License Commissioners, Prof. O. C. Larason and U. O. Stevens have opened their offices in the Trust building and will receive applications for saloon licenses for the next fifteen days, or until Tuesday evening, Sept. 15. Applications may be made any day during that time between the hours of 8:30 a. m. to 11:30 a. m. and 1:15 to 4:30 p. m. The board will not be in session evenings or Saturday except by appointment and no session will be held Labor Day, Sept. 7.

Under the apportionment furnished by the state board Licking county is entitled to sixty-two saloons as follows:

Newark City, 27,866 population, 55 saloons.

Utica Village, 2,058 population, 4 saloons.

Hanover township, 1,097 population, 2 saloons.

Hanover Village, 338 population, 1 saloon.

The question has been raised as to whether Hanover township and village is wet or dry. An examination of the records has been made but a conclusion could not be reached at on account of some missing facts, papers either having been mislaid, lost or destroyed. The matter has been turned over to Attorney General Hogan, and his opinion will be final. Two applications for saloon licenses in Hanover have been on file with the local license board for some time.

Last year a license each was granted in Fallsburg and Licking townships but they have since been voted dry.

The first man in the county to apply for license was Albert Mossholder of East Newark who made application early Tuesday morning, depositing \$5 when the application was made. All applicants must do likewise and the money goes to the state board, as does all money received by the local board. In case an application should be refused the fee is not returned.

The second application was made by George Bader the well known agent of the Hosters' Associated breweries. Mr. Bader applied for a wholesaler's license, the same as he operated during the past year.

There will be a number of new applications this year including one which will be made by a colored man. There was in the neighborhood of a hundred applications last year but it is not thought likely that the number will reach nearly that figure this year. There may be a few changes as several places are on the market for sale and one is in the hands of an assignee.

Those favored with licenses must pay for same \$1,000 each to operate for a year and in addition must pay \$100 additional when the license is granted. The latter fee more than pays the expense of operation of the local board and leaves a neat sum to turn into the state treasury.

Genuine Eczema Remedy

New Remedy That Heals Eczema (Quickly).

Evans' True Store sold hundreds of jars of Eczema and although they offered to refund the purchase price to any dissatisfied purchaser, not one jar has been returned. Why this is so is surprising in itself. Yet the most marvelous thing is the reports of chronic cases of eczema that have been cured by this simple skin food. People who have suffered with scales, sores and even bleeding itching have found relief in Eczema. No matter what the eczema, pimples or other breaking out occurs whether on the face, hands, legs or body, the application of Eczema should be made at once, and even the worst or most chronic cases should be cured in short time.

You can buy a liberal-sized jar today at the very low price of 25c, and with every package goes Evans' Drug Store guarantee to refund the money if it is not a cure.

MILITIA OUT IN MONTANA STRIKE ZONE

(Associated Press Telegram) Helena, Mont., Sept. 1.—Ten companies of the National Guard of Montana left here at 1:15 p. m. today aboard an armored train for Butte.

Two machine gun platoons accompanied the troops. Major D. J. Donohue of Clifton is in command. Governor Stewart delivered sealed orders to the commanding officer just before the train departed.

(Associated Press Telegram) Butte, Mont., Sept. 1.—The militia of Montana is being mobilized to put down the strike here. This news particularly in business circles was met with relief. The militia were organized to take charge of the business and leave the strikers to their own devices.

According to the plans, a committee of visit the original company today employed there that they must quit or be dismissed.

It is a relief to the business community to see the militia mobilized to put down the strike here. This news particularly in business circles was met with relief. The militia were organized to take charge of the business and leave the strikers to their own devices.

PRUNING

OF ITEMS OF EXPENSE URGED BEFORE COMMISSION FIXING TAX RATE.

City Council's Budget for Municipal Purposes Nearly Necessitated Additional Levy.

The budget commission is in session at the court house this afternoon in what will probably be their final session.

The commission is composed of County Auditor Jesse Hurrey, Mayor R. C. Bigbee and president of the board of education, W. C. Christian.

Each member of the board is desirous of making the lowest possible rate but are confronted with conditions that may necessitate an increase over that of last year when the rate for municipal purposes was 13 mills. Provision must be made for two new funds, mothers' pension and the blind pension and an increase is asked by the safety and service departments of the city government. An increase in the school fund is also necessary.

The tax duplicate of the city under the operation of the new Warner law has been increased to the extent of a million and a half dollars and should the commission agree upon the annual budget for municipal purposes as submitted by the present city council, the tax rate for Newark city would amount to just 14 mills, an increase of 1 mill over that of last year in spite of the large increase placed upon the duplicate.

Auditor Hurrey at this afternoon's session asked as a member of the commission, that all funds be "pruned" so that the rate might be 12 1/2 mills, one-half mill lower than last year. The commission with ex-City Treasurer C. L. V. Holtz as clerk of the board, is now busy wrestling with the problem and an agreement on this year's tax rate may be reached before adjournment.

Later this afternoon the commission agreed on a rate of 13 mills, the same as last year, which will cover the annual budget for all municipal purposes.

GRANVILLE GIRLS WILL GIVE PLAY AT HEBRON THURSDAY.

FRIENDSHIP OF GERMANS LAUDED BY MRS. HARRISON

(Associated Press Telegram) New York, Sept. 1.—The friendship of the German people for Americans is deep seated and took concrete form in many acts of kindness during the early days of the great European conflict, according to Mrs. Benjamin Harrison widow of the former president who reached New York today on the steamer Ryndam from Rotterdam. Mrs. Harrison and twenty-four other American refugees who were in Germany at the outbreak of hostilities drew up a statement embracing their views before the Ryndam reached port.

NATIONAL BANK CLOSED DOORS AT PENSACOLA

(Associated Press Telegram) Pensacola, Fla., Sept. 1.—The American National Bank of Pensacola closed its doors today after a run lasting about an hour. Aroused by sensational reports circulated last night depositors flocked to the bank this morning. For some time after the doors were closed streets in front of the bank's ten story building were crowded. Officials of the bank have made no statement.

The bank was capitalized at \$300,000 and had deposits of \$1,715,000 according to the last annual statement. On last January 1st, its loans and discounts amounted to \$2,000,000.

A Second Line of Defense

It is an established principle in war to have a second and even a third line of defense with ample reserves located close enough to every vital point so that in case of a reverse at that point, the reserves can immediately be used there.

This is a mighty good principle to apply to your finances. Your income is your first line of defense to meet your expenses. But have a savings account here as a reserve to meet any special contingency.

DAMAGES

IN THE SUM OF \$10,000 ASKED AGAINST WOMAN FOR SLANDERING MAN

By Accusing Him of Theft—Other Petitions—Probate News—Real Estate Transfers.

John W. Peck, through a Columbus attorney, has filed a suit in the Court of Common Pleas against Irene E. Miles, asking damages in the sum of \$10,000 for alleged slander. He recites in his petition that defendant accused him of stealing hay, stating that she uttered the words, "He stole my hay at 9 o'clock at night. I saw it with my own eyes." Peck states that his reputation has been ruined in the sum of \$10,000 and asks judgment for that amount. Both parties are residents of Licking county.

Corn swayed with wheat. There was no steady business. After a start that was 1-8 to 1-2 down, prices went somewhat higher than the previous level.

Continuance of export demand put strength into oats. Big deliveries in the September option counted against the bulls at first, but the effect was not of a lasting nature. Provisions sagged, notwithstanding an advance in the hog market. September deliveries were heavy, and tended to stave off buyers.

PROTEST FILED RECALLS C. H. & D. DEAL WITH PENNA.

(Associated Press Telegram)
Columbus, Sept. 1.—O. P. Gohlbin, former member of the state railroad commission, acting as attorney for the American Foundry and Machine company of Cincinnati, today filed with the state public utilities commission a protest against an action on the part of the P. C. C. & St. L. railroad which is termed by Mr. Gohlbin, "a glaring violation of the Valentine state anti-trust law."

The petition filed by Mr. Gohlbin charges that the Panhandle railroad committed a violation of the law when it ordered the Cincinnati, Hamilton & Dayton Railway to cancel the commodity rate of \$1 from Hamilton to Linwood, O., on carload lots of steel castings.

The Spell of The Dance Is On

From coast to coast—from the mansions of the rich to the less elaborate abodes of the poor—the lively, swirling, insinuating, spell weaving music of the times is demanding expression in physical rhythm.

To the young and old alike, modern popular music is alluring—inescapable. It seizes and dominates and lifts us into a world of delicious excitement.

Let your home tremble with the radiant, joyous rhythm of music. Place a piano or a player piano in your home.

Let the Boys and Girls and Their Friends Clear the Floor and Swirl to their Hearts' Content.

It will keep them at home. It will free them from the association and influence of less favorable meeting places, and provide them with the means of clean, healthful enjoyment. If you have children, young or grown up, you could add nothing more to complete their happy lives than a good piano or player piano.

One of our Pianos is worthy of a conspicuous place in your home.

Opposed to Church Begging,
Pastor Russell Lauds Charity.

GENEROSITY IS GODLIKE.

Church Support Not Charity—Missions Different—Charity a Privilege—Its Godlikeness—Wise and Unwise Charity—Charity's Rewards, Present and Future—Must Be Displeasing to Almighty to Have Begging Done in His Name and Without His Authority.

(PASTOR RUSSELL)

August 30.—Pastor C. T. Russell, widely known through his PHOTO-DRAMA OF CREATION, which is being seen by thousands everywhere—widely known, also, by his sermons in hundreds of newspapers, by his books and by his weekly Bible Studies, preached today from the text: "He that hath pity upon the poor lendeth unto the Lord; and that which he hath given will He pay him again."—Proverbs 19:17.

The fact that I have been preaching for thirty-eight years and yet have never taken up a collection nor made any appeal for money in connection with my work may have led some to the erroneous conclusion that I am opposed to charities, said the Pastor. Nothing could be further from the truth. During those thirty-eight years many thousands of dollars have passed through my hands—voluntary gifts from grateful souls, for the spread of the Good Tidings of great joy which shall yet be unto all people. Moreover, it is my conviction that no one could be an acceptable Christian unless he possessed the spirit of charity, benevolence, unless he really loved to give for good purposes—for the glory of God, for the benefit of his fellows.

The Pastor declared that from his viewpoint missionary enterprises might properly be considered charities—but not so Church enterprises. The Church, he claimed, is not a missionary society for the world's benefit, but an arrangement for the benefit of the Church members. Hence each member of this brotherhood should consider himself in duty bound to co-operate to the extent of his ability in providing the necessary expenses connected with the meeting place—light, janitorage, etc.—the blessings and comforts of which he enjoys. Yet even in this there should be nothing akin to coercion or demand. If the sum-total were found insufficient, more humble quarters at less expense should be engaged as soon as possible.

It is wrong, said the Pastor, for a congregation to aspire to a fine, expensive auditorium and general establishment beyond their own means. It is wrong for them to go outside and solicit money from the world, the flesh and the Devil, in the name of God! Surely God never authorized such a proceeding; for just as surely as it would be offensive to any right-minded person to have solicitation for money made in his name, so it must be to the Almighty to have begging done in His name without His authority.

The Bible distinctly tells that God is very rich. No rich man would approve of begging done in his name, especially from the poor. And for us to promise God's special blessing and favor in return for filthy lucre is an outrage against Divine Justice, Wisdom, Love and Power. The Lord's own Word is that all the gold and silver are His.

But, we are told, if solicitations, collections, pew rents, fairs, festivals, etc., were abandoned, all the churches would be closed, except such as are beneficially endowed. If this were the case, we believe that, nevertheless, the Church would gain respect and influence with the world which would more than compensate. If one-half the churches disorganized, the other half, rightly supported in accordance with the Divine precepts and the example of Jesus and His Apostles, would accomplish more good than would twice the number under present conditions. In which they have considerable of the world's scorn. That scorn directed and indirectly reflects against the Divine Character and the Divine Word.

In illustration of this conviction the Pastor cited the fact that the Divine blessing has been with his work. He admitted that the money passing through his hands is really as nothing compared with the large sum spent annually by the various Christian denominations. He admitted that the International Bible Students Association owns no valuable real estate and cannot boast of large bank accounts. They have followed the plan of using actively and economically in God's service whatever money has voluntarily come to them, not seeking to build temples made with hands, but to prepare the living stones for the glorious Temple of Christ beyond the veil.

Under this arrangement, they never spend more than what is in hand. God has blessed the work and the uncollected donations increase year by year. The activities incidental to the use of these funds extend now to all parts of the earth preaching the Message of

God's Love and helping to open eyes of understanding long blinded by creeds, philosophies "so called," and misunderstandings of the Word of God.

Generosity is Godlike. In declaring generosity to be Godlike, the Pastor wished his hearers not to misunderstand him to mean that gifts of money could purchase Divine favor and relationship. He trusted that his views, following closely the Scripture lines on this subject, are widely known; namely, that there is only one way into the Father's favor and into His family the way of renunciation of sin and turning to righteousness, of acceptance of Christ's redemptive work and of full consecration through Him to do the Father's will, even unto death. Only such spirit-begotten ones are acknowledged in the Bible as children of God. All others are Scripturally described as "aliens, strangers and foreigners" from God and His promises.

But the speaker wished all to discern that there are noble minded souls who have not entered this "narrow gate" and who are not, therefore, children of God, but who, nevertheless, by nature possess traits of Godlikeness, notwithstanding their share in the fall. Benevolence, generosity, charity in its true sense, wherever found is a trace of the Godlikeness in which our first parents were created. Noble-minded people of the world in practicing charity are imitating one of the highest qualities of the Divine character, and forthwith they experience a blessing whenever they exercise their charitable instincts.

As for Christians, we find, as the Apostle declares, that they are naturally a varied assortment; for they possess, some more and some less, of the Godlike qualities, and some more and some less, of the depraved traits. But following their begetting of the Holy Spirit, these become more and more generous, benevolent, charitable. Under the instruction and discipline of the School of Christ, the Spirit of Love, the Spirit of God, the Holy Spirit, it is more and more shed abroad in their hearts. For them the great lesson of life is this lesson of love, charity, sympathy for the Truth, for one another and for the world.

Blessed in Their Giving. God is the great Giver, of whom the Apostle says, "Every good and perfect gift cometh down from the Father of Lights." The Lord Jesus Christ exemplified to mankind God's great Love, and showed that He Himself possessed the same Spirit, the same loving, generous, kind nature—so much so that He laid down His life on behalf of our sinners. It is required of the Church that each one shall be imbued with this same loving disposition as their Savior had; for "if any man have not the Spirit of Christ, he is none of His." That love not only left the Heavenly glory and riches on behalf of the sinner, but additionally endured the Cross and its shame.

The Apostle John urges all Christ's followers that, cultivating the Master's noble, generous, loving Spirit, they ought also to lay down their lives for the brethren. They ought also to be ready to count all things but loss and dross, gladly to be renounced in the interest of the Lord's Cause. With every sacrifice, these receive more than compensation of Divine favor, besides the Master's promise of eternal life on the Heavenly plane.—Mark 10:30.

And now let us think of the world—especially of those noble, generous souls who, possessing something of the original Godlikeness, take pleasure, not in cheating their fellow men, not in doing everything injurious to the interests of others, but frequently in contributing to the relief of suffering, to the maintenance and education of orphans, the protection and comfort of widows, as well as to hospitals, infirmaries, etc. Is there any provision of blessing for these?

These noble-minded, charitable people are being blessed by their generous course; for there is a Law of Retribution continually in operation. The principle, "It is more blessed to give than to receive," applies to them as well as to the Church. As these noble souls daily become more loving, more generous, they are developing characters which in the future will be helpful to them. If they do not come into vital relationship with God through Christ at the present time, if they have not the hearing ear and the responsive heart now, nevertheless the time is coming when they will share in the world's blessing. It will be a great blessing, even though far inferior to that of the Church, as human restitution is inferior to spirit perfection through the first Resurrection.

When Messiah's Kingdom shall have been inaugurated and the whole world shall enter upon its trial for life or death everlasting noble souls that have exercised benevolence, Godlikeness, will be in advance of others who, even with similar noble heritage, have failed to use, exercise, develop, this quality of benevolence, or charity. In other words, liberal souls not only experience a blessing in the present time, but thereby prepare themselves for greater blessings in the future.

Wise and Unwise Charity. Since the blessing of charity comes to the individual as a result of the exercise of that quality, it follows that the giver gets a blessing whether the gift is wisely bestowed or not, and whether the recipient is profited or not. Hence, even though one of our gifts were unwisely or unworthily bestowed, we need not mourn, but rather realize that according to the blessing, never one will dispute that the spirit of a gift should be used in connection with our other affairs, as well as in our other affairs. Very frequently

visions for the poor in our day are no longer rated as private charities but as public, and even sometimes as merely just. For instance, provisions for the blind, for the infirm, asylums for the mentally weak and hospitals for the sick, are now considered to be a duty of the community and are provided for by general taxation. Thus benevolence is asserting itself, and combining and dividing its honors with justice. That which previously would have been left to a few of generous disposition is now provided for by the whole community—generous and selfish. Who can question that this is an advanced step; and, if so, that all should co-labor along those lines and cease to encourage mendicancy, the solicitation of alms, the appeal to sympathy through the eye?

If our social arrangement has provided for such cases, it should be considered a misdemeanor to ignore such provision. If our public charities, hospitals, city homes, etc., be not upon such a scale as have the approval of generous, reasonable minds, then the entire system calls for reorganization, that it may be made right, proper, suitable for the use of any having need thereof. The community should be ashamed to provide for others what they would not be willing to accept for themselves under the same circumstances. The Pastor expressed a hope that these reasonable sentiments might through the public press be brought effectively to the attention of Poor Boards, Charity Committees, etc.

God Loves Cheerful Givers. God's gifts are given cheerfully. The Bible tells us that He appreciates a cheerful giver—one who enters into the spirit of his gift, who accompanies the coin with a cheerful word, a kind look, helpful advice, or what not. If these cheerful givers belong to God's Family, the Father will love them and manifest His love for them. Their cultivation of His Spirit will bring them into closer relationship with the Almighty. How generously shall we give? some may ask. The answer is: God has given us our minds, our judgments, wherewith to decide all questions. The need of the needy, the amount of our surplus, the claims of others upon that surplus—all these things should, properly enough, enter into our calculations and help us to decide how much should properly be given to charity.

In order to get a great blessing out of our charities, we should give until we feel it. The person who gives one coin out of a thousand—which he would never miss—is not likely to get therefrom a great blessing. He must continue in the exercise of this Godlike disposition until his gifts shall necessitate his restraining of his own luxuries or, perhaps, his own comforts. Then he begins to be really charitable and to really appreciate some of the joys which the Lord designs shall be granted to generous souls.

Giving Related to Forgiving. Every advance in true charity has a bearing upon the character. Whoever is generous with his fellows will find it more and more easy to be forgiving toward those who do him injury. Charity, love, benevolence, affects the entire being. It tends to make its possessor more kind and gentle in word, action and judgment. It develops his sympathy. All this is a development of Godlikeness. The Apostles point this out in order, associating meekness, gentleness, faithfulness, long-suffering, brotherly kindness, charity—all elements of the one great quality of Love.

The Father's Holy Spirit of Love is also the Spirit of His Son, our Redeemer; and all who will be accepted as members of the Bride, the Lamb's Wife, we are assured, must be copies of God's dear Son. They must all have this kind, generous, charitable quality. We are not meaning to say that such a quality would be acceptable to God without Christ, our Redeemer; for the Bible clearly sets forth that no man cometh to the Father but by Him. (John 14:6.) But the Son's method of preparing us for the eternal glory, after we have become His disciples, is by instructing us along the lines of the development of this Divine Characterlikeness. If Christians could realize this more fully, how kind and charitable they would be!

The Lord would have His people wholehearted in their sympathies—broad, deep, generous. To give either money, forgiveness, sympathy or any other good thing grudgingly, half heartedly, is to spoil the matter. True, many of the Lord's people are by nature very narrow, mean, spiteful, contrary to what the Lord would approve. But He is willing to overlook all the natural defects if He sees the right heart-condition—sees that we are endeavoring to the extent of our ability to overcome our natural weaknesses and to put on Christ.

With us the first lesson is to learn to look into the mirror of the Lord's Word and there to note our natural meanness and contrariness to God's Characterlikeness. As we thus behold in God's Word the true standard of character, contrast with it our own and seek to copy the Lord, we shall, as the Apostle declares, be changed from glory to glory. Step by step the transforming work will proceed.

We shall never be able to bring our bodies to that perfection of word and look which we desire; for our desires are perfect, copied from the grand Example of our Heavenly Father and our Heavenly Lord while our bodies are imperfect through the fall. We are encouraged, however, by the Scriptural assurance that God will look on the heart and note our efforts to conform to the Heavenly Pattern. We shall be judged, not according to the flesh but according to the intention. Thus alone can we have the righteousness of the Law fulfilled in us while walking, not after the flesh, but after the Spirit.

PLAN TO TAX TICKETS TO AMUSEMENTS

In Order to Raise \$50,000,000 is Under Consideration by Congress Committee.

WASHINGTON, Sept. 1.—Plans for a five or ten per cent. war stamp tax on all railroad passenger tickets, theater tickets, baseball tickets and the like, is under consideration by members of the ways and means committee.

The plan, calculated to raise annually from \$50,000,000 to \$80,000,000, originated in administration circles. Opinion among the Democrats of the committee is divided. Some contend that a tax on beer and increased taxes on domestic wines and patent medicines, with an increase of one per cent. in the income tax, and a permanent inheritance tax would meet all the exigencies caused by the European war without being felt seriously by individuals.

CONVULSIONS AND BRIGHTS DISEASE

An extended recovery in chronic Bright's disease with albumen drainage, resulting in convulsions, blood in urine, etc.

Dr. W. H. Erickson of the Chicago Medical College, 118 Laguna street, San Francisco, was in New York to be at the funeral of a friend who had been suffering from Bright's disease for many years. Dr. Erickson told his wife he was going to die at an instant. There was convulsion and the eye contraction and he reached the convulsion stage in making one of the tests after seeing Dr. Erickson. The doctor, seeing it up he found the patient did not run out, it had subsided, and almost solid albumen. The doctor administered a solution of Compound. This was a relief. The patient's appearance at our office was hearty in fact is a result of the results and their recovery.

The patient of Fulton's Road, Connecticut, has albumen in his urine. Dr. Erickson told his wife he was going to die at an instant. There was convulsion and the eye contraction and he reached the convulsion stage in making one of the tests after seeing Dr. Erickson. The doctor, seeing it up he found the patient did not run out, it had subsided, and almost solid albumen. The doctor administered a solution of Compound. This was a relief. The patient's appearance at our office was hearty in fact is a result of the results and their recovery.

Prince Bismarck and Kaiser Wilhelm II, When Latter Visited Him 26 Years Ago

This photograph of Prince Bismarck and Kaiser Wilhelm II was taken October 20, 1888. The then chancellor was then an old man who did not move about as gracefully in the days when he created Germany in and his own strength. The Kaiser was just beginning then to feel the politics of the German nation unhampered by the dictatorial old man who wanted the same power over him he had exercised over the grandfather and the father. He began the work which has led to the strength of Germany in commerce and industry and the wonderful machine which has been made of her arm.

FINAL STAGES OF RELIEF WORK IS NOW REACHED

WASHINGTON, Sept. 1.—Disbursement of gold to Americans in Europe and arrangement for special trains by American embassies has brought the work of relief to its final stages. The American charge at St. Petersburg announced the receipt of the money from the cruiser Tennessee which had been distributed to consuls. He reports all Americans will be out of Russia by the end of the week.

Relief trains from Berlin to Rotterdam are taking care of the Americans gathered there from many points.

Although relief trains from Switzerland are running directly to Paris, many Americans who refused to wait for the accommodations furnished by Minister Stettin, have moved about on their own responsibility. It is reported, and cannot now be located by the legation, Ambassador Herkimer in Paris, however, reports the arrival of two special trains from Switzerland and that those on board were well satisfied with the attention given them.

"DOPE" LAD RECOVERS.

Clarence Craft, 17, of Moundsville, who was sent to the Sanitarium Friday night for treatment, was able to leave that institution late Saturday, almost completely recovered. He claimed he was doped and placed on board a train at Moundsville to prevent his testifying in a criminal action there.

Theatres

Auditorium Tomorrow.

Tomorrow evening is the amateur performance at the Auditorium theatre. The amateur performances at this popular play house have all been big successes.

Several of the best amateurs in Newark have signed up to appear in the contest and a splendid program of amateur acts is sure to be on hand.

All amateurs are cordially invited to appear in any of the amateur contests that are held at the Auditorium theater on every Wednesday night.

Auditorium Tonight.

An excellent program of high class photographs at the Auditorium theater tonight will furnish you a good chance to see some of your favorite actors and actresses in the motion pictures.

William Clifford and Marie Walcamp the two popular Bison 101 photo stars will be seen in a stirring romance of the south seas, "The Tribal War of the South Seas." This film was photographed in the south seas and each scene is perfect in its appointments and acting.

Francis Ford and Grace Cunard, the two popular Powers favorites, in a photo drama entitled, "The Man of Her Choice." This film is a story of adventures and thrilling instances. Francis Ford and Grace Cunard have long been considered two of the best actors and the most popular favorites in motion pictures. A Nestor comedy of the sea entitled, "Detective Dan Cupid," featuring the three most popular comedians in motion pictures, Lee Moran, Victoria Forde and Eddie Lyons.

ALL LABOR DAY COMMITTEES ROUNDING UP

Cash Prizes for Best Showing in Parade, Band Concerts and Other Pleasures.

The Labor Day committee is now coming down the home stretch and can assure all the citizens that every indication points to the annual Labor Day celebration of next Monday, September 7 as the best one ever held in Newark. The large program is being whipped into shape and will be a hummer. Two splendid bands, (union ones) not as some have reported non-union, will give splendid concerts both afternoon and evening.

To the union in line making the nearest and best appearance \$10.00 To the union having the largest per cent of its membership in line \$10, and several of the unions are working like beavers for these prizes. Parties who are unknown are circulating reports that there will be no parade this year in Newark. Who these people are can possibly be surmised as knockers, or people interested in taking our citizens out of town for that day. Another report is that non-union and non-sympathetic organizations will be in the parade. In answer to these reports the committee would call attention to the free program, a number of copies of which will be distributed on our streets Saturday, September 5th for the refutation of these reports.

The committee expects two splendid speakers who are known officers of labor organizations to deliver addresses afternoon and evening. Mr. John Voll of Zanesville, president of the Ohio State Federation of Labor will speak in the afternoon, and Mr. John O'Neil, executive officer of the International Molders' Union of Columbus, will talk on the cause of labor in the evening. Both addresses will be delivered from the court house steps.

Workmen Hall No. 35 1-2, South Park Place, over the Grand picture theatre, will be open all day and evening for a rest room for everybody.

With the program of fun and the two high wire performances of Prof. O. O. Davis, from the top of the two high buildings on the southwest corner of the public square, will certainly round out the day and be a pleasure to all who attend.

HAVE DARK HAIR AND LOOK YOUNG

Don't stay gray! Nobody can tell when you darken gray, faded hair with Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. By morning the gray has disappeared; after another application of two, it is restored to its natural color and looks glossy, soft and abundant. Agents Hall's Drug Store.

EAT LESS MEAT IF BACK HURTS

Take a glass of Halls to Flush Kidneys if Backache bothers you—Drink lots of water.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; make a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

SPARTANA

has a hundred beautifying uses in the house.

For giving a hardwood effect to a floor; for retouching a scuffed piece of furniture, such as a chair, table or sideboard, or any other article scarred by age or wear, it has no equal.

Anybody can apply it. It is so thoroughly "ready" when you buy it, that it's only a matter of cleaning the surface to be refinished and brushing it on.

SPARTANA flows easily and evenly, without lapping, dries quickly, giving a surface that is lustrous, elastic and lasting. Made in many shades and colors, to match any wood or decorations.

EXPERIMENTAL
FREE MARKETS
OPENED TODAY

(Associated Press Telegram)
New York, Sept. 1.—Four experimental free markets with accommodations for 500 pushcarts or stands and 112 farm wagons were thrown open to the public in New York early today.

The success or failure of this plan to reduce the high cost of food, according to its promoters, depend upon the spirit of the purchasing public.

An appeal to the housewives to get out their market baskets and visit the market nearest their homes, which was sent out last night by Mrs. Julia Heath, president of the National Housewives League was expected to result in a general rush throughout the day to test the declaration that prices can be reduced by purchasing direct from the producers.

The office of President Marks of Manhattan Borough, swarmed all day yesterday with farmers, truck gardeners and pushcart men clamoring for licenses to expose their wares for sale in the most desirable locations.

Housewives armed with market baskets, stormed the markets in such numbers that many farmers and dealers had sold out within an hour.

Farmers from the surrounding country, pushcart merchants, commission men and representatives of one department store, sold their goods under supervision of the committee's inspectors, who were fortified with the latest retail and wholesale quotations.

Prices tumbled. Bread sold as low as 4 cents a loaf and other staples were correspondingly cheap. Thousands of pounds of sugar, at 7 cents a pound, were sold during the first hour of trading. The price of potatoes was cut more than one-third; new corn sold for forty per cent. less than the prices demanded at shops directly across the street, apples, peaches and other fruits, freshly gathered, were cut in price from twenty to thirty-five per cent.

FIVE HURT WHEN
TRAIN IS DITCHED

(Associated Press Telegram)
Grand Rapids, Mich., Sept. 1.—Five persons were injured early today when several cars of the Northland limited, a resort train on the Grand Rapids & Indiana railroad, went into a ditch near Kalamazoo.

It was said by officials of the railroad that none of the five was fatally hurt.

Among the slightly injured were W. R. Nunnally, L. H. Arntner and Mrs. W. T. Drummond, all of Louisville, Ky.

The accident was caused by a washout. Eight steel Pullmans rolled down a ten-foot embankment

May Help You if Lungs Are Affected

Proper diet, fresh air and temperate habits are headlined by a prominent authority on Lung Trouble, in an extended and carefully prepared booklet, "Lung Trouble," for more than 400 pages. It contains a complete course of instruction in the treatment of Lung Trouble, by the most successful methods. Read what it has to say in this case.

"Gentlemen: In December, 1909, and September, 1910, I was taken with hemorrhages of the lungs which compelled me to leave my home and bed. My doctor advised me to go West. In November I started for Denver, Colo. After my arrival in Denver, Brody, who, upon hearing of my condition, urged me to take the 'Lung Cure' which I kept on taking. In March, 1911, I returned home. I am now able to work, have a good appetite and am well. When I left Denver my weight was 130 pounds. I now weigh 165, my appetite is good. I thank God and your 'Lung Cure' for my recovery." EXCITEMENT AS
BOMB EXPLODED
IN THE STREET

(Associated Press Telegram)
London, Sept. 1.—A despatch to the Reuters Telegram company from Paris states that when the bomb exploded yesterday in the Porte St. Martin quarter from a German aeroplane people in the vicinity, believing it due to an explosion of gas rushed from all sides.

The fire brigade arrived promptly as did the police, the commissary of police and representatives of the French aviation service. As a matter of fact, Parisians show no disposition to be unduly disturbed by these bomb incidents, which are generally regarded as a rather harmless effort on the part of German aviators to create a panic.

STATE FAIR

TODAY IS GIVEN OVER TO FEATURES OF THE GOOD ROADS PROPAGANDA

President of Federation Urges That Republican Suggestion Would Retard Movement.

(Associated Press Telegram)
Columbus, Sept. 1.—This is "good roads" day at the Ohio State Fair which opened here yesterday.

There are a number of features on the program for the day, chief of which is the "good roads" parade.

Horse drawn and motorized floats paraded through the grounds, each float showing some mode of transportation. Several of the trucks carried miniature roads and bridges, which illustrate the advantages of reinforced concrete bridges over the old timber type.

Road and bridges and members of the Ohio branch of the poultry association attended meetings at the fair grounds today. Jesse Taylor, president of the Ohio road roads' federation in an address at the fair grounds said in part:

"I have drawn up a plan to expand our present \$1,000,000 which is derived from the half mill tax, by following the suggestion in the Republican platform to abolish the state highway department, would be to divert much of the \$1,000,000 into corruption, graft and politics and not to put it into roads."
